

We are a software company, specialized in providing high quality software applications and complete IT solutions, in various activity sectors: finance, medical, construction and architecture, services.

We made it our mission to make life better

ABOUT POSITION

Join our team on the position of:
FULL STACK PHP DEVELOPER

We value a culture of excellence. We need engineers who are not only technically proficient, but also demonstrate the following qualities:

- A willingness to embrace the concept of iterative development as the means for building seamless products
- A readiness to give all the effort necessary to do an excellent job even if it means putting in extra time to research the problem you're facing
- Perfectionism knowing how a job should be done and not stopping until it's done correctly

RESPONSABILITIES

- Minor and major application feature development
- Assist stakeholders in developing feature specifications
- Plan, code, test, and deploy new features/applications/projects/modules/plugins
- Troubleshoot application bugs and determine resolutions
- Optimize and refactor existing code to improve performance and reliability
- Suggest improvements, security needs, best practices, etc (your voice will be heard)

SKILLS REQUIRED

Self-management and time management are critical in this role. Without it, you will not be successful. Other requirements include:

- 7+ years experience with PHP, Modern Backend Framework

We are a software company, specialized in providing high quality software applications and complete IT solutions, in various activity sectors: finance, medical, construction and architecture, services.

We made it our mission to make life better

(CakePHP, Laravel, Symfony, etc.), Modern Front End Framework (Vue, jQuery, Angular, etc.), HTML5, SASS & CSS, MySQL, Linux

- A communication pro - must be able to explain technical issues to a non-technical person, pleasantly
- Comfortable with writing, editing, and maintaining Unit/Feature tests
- Highly attentive to details, able to cross all the t's and dot all the i's and help review/fix others
- There is direct project oversight, but you are expected to take ownership of your work and your projects, establish deadlines, and communicate progress proactively
- Eager to research and learn in a self-directed way (always improving)
- Easygoing, fun, and a team player - must be able to comprehend highly-advanced forms of sarcasm
- Experience with Test Driven Development (TDD)

WHAT WE OFFER

- Working on products, not on outsourcing projects
- Working in a very dynamic company
- Competitive salary
- Flexible working hours
- Opportunity to establish valuable career contacts
- A complex package of benefits
