## BUSINESS ANALYST

### The Type of Colleague We're Looking For

We are looking for team players who are not only technically proficient, but also demonstrate the following qualities:

1. **Continuous development:** to embrace the concept of learning and becoming better day by day. Personal achievements give us energy and inspire our growth together.
2. **Responsibility:** to get involved courageously and to be the one who presses the start button whenever you see an opportunity.
3. **Agility:** being able to look into the future and search for the solution that will take us further.

### Job Responsibilities:

- Define the business problem and primary objectives of new projects. Identify and validate the key business requirements;
- Analyze and model the business domain to create a complete picture of workflows and technical/functional requirements fulfilled by existing and proposed software;
- Coordinate requirements walk-through and sign-offs, verifying with user representatives/stakeholders that use cases and process models accurately portray specific business needs;
- Establish and control project change management processes to secure project scope, mediate internal issues and conflicting priorities among cross-functional teams to keep the team focused on delivery;
- Develop and maintain a customer focused relationship with the product stakeholders and other information technology areas by collaboration, timely communication and responsiveness.
