

We are a technology company listed on the Bucharest Stock Exchange and specialized in digital transformation of businesses and communities.

We integrate the skills needed to provide access to the digital economy. Team agility and human-friendly solutions are the ingredients for transforming ITC complexity into simplicity for our partners.

We made it our mission to make life simpler

Join our team on the position of:

SENIOR REACT NATIVE DEVELOPER

The Type of Colleague We're Looking For

We are looking for team players who are not only technically proficient, but also demonstrate the following qualities:

1. **Continuous development:** to embrace the concept of learning and becoming better day by day. Personal achievements give us energy and inspire our growth together.
2. **Responsibility:** to get involved courageously and to be the one who presses the start button whenever you see an opportunity.
3. **Agility:** being able to look into the future and search for the solution that will take us further.

What will your responsibilities look like?

- Architect, build and maintain excellent React Native applications with clean code;
- Design and implement new user-facing features using React Native;
- Development, testing, deployment, and maintenance of mobile applications and web services to support the information needs of the company's business lines;
- Deploy for testing and production and make sure everything is running ok;
- Optimize workflows and development tactics by implementing libraries/templates and other assets;
- Be responsible for the efficiency and quality of the code;
- Research continuously and acquire the latest technologies for maximum efficiency;
- Participate in project estimates and new project setups;
- Communicate with team members and clients on a daily basis in stand-ups and calls;
- Support junior developers with training and coaching;
- Perform code reviews for other team members.

LIFE IS HARD SA

We made it our mission to make life simpler

What abilities will you need?

- At least 4 years experience as a React Native developer;
- Previous experience building mobile applications for Android and iOS
- Extensive knowledge of TypeScript, web stacks, libraries and frameworks (ex: NestJs);
- Experience with Node JS or other backend languages
- Experience with Redux;
- Previous experience with restful APIs and with with client-side frameworks/libraries such as React, Vue.js, Angular, jQuery or Bootstrap;
- Familiarity with native build tools, like XCode, Android
- Good understanding of JavaScript, HTML5, CSS3;
- Experience in working with third-party dependencies and debugging dependency conflicts;
- Previous experience with store releases: App Store / Google Play;
- Understanding NoSQL database engines (MongoDB/Cassandra) or SQL (MySQL/Postgres/Microsoft SQL)
- Practical knowledge of product development cycle and Scrum/Agile methodologies.

It would be nice to have:

- Ability to discover functional and non-functional requirements of an app, based on various levels of inputs from client;
- Capacity to transform customer ideas to business model and scope understandable by technical experts;
- Very good interpersonal, communication, and collaboration skills;
- Exceptional analytical and problem-solving aptitude;
- Excellent organization/time management skills;
- Being able to work both on a team and independently;
- Strong communication skills dealing with team members and occasionally senior staff;
- Detail-oriented;
- Strong desire to learn and grow professionally.
