

We are a technology company listed on the Bucharest Stock Exchange and specialized in digital transformation of businesses and communities.

We integrate the skills needed to provide access to the digital economy. Team agility and human-friendly solutions are the ingredients for transforming ITC complexity into simplicity for our partners.

We made it our mission to make life simpler

Join our team on the position of:

SYSTEM ADMINISTRATOR

The Type of Colleague We're Looking For

We are looking for team players who are not only technically proficient, but also demonstrate the following qualities:

1. **Continuous development:** to embrace the concept of learning and becoming better day by day. Personal achievements give us energy and inspire our growth together.
2. **Responsibility:** to get involved courageously and to be the one who presses the start button whenever you see an opportunity.
3. **Agility:** being able to look into the future and search for the solution that will take us further.

What will your responsibilities look like?

- Maintenance, configuration, and reliable operation of all installed systems and infrastructure
- Install, configure, test and upgrade computer components and operating systems, manage virtual servers, and integrate automation processes
- Troubleshoot hardware and software errors by running diagnostics, documenting problems and resolutions
- Monitor and test application performance for potential bottlenecks, identify possible solutions, and work with developers to implement those fixes
- Maintain security, backup, and redundancy strategies
- Participate in the design of information and operational support systems
- Provide documentation and technical specifications to IT staff for planning and implementing new or upgrades of IT infrastructure

LIFE IS HARD SA

We are a technology company listed on the Bucharest Stock Exchange and specialized in digital transformation of businesses and communities.

We integrate the skills needed to provide access to the digital economy. Team agility and human-friendly solutions are the ingredients for transforming ITC complexity into simplicity for our partners.

We made it our mission to make life simpler

What abilities will you need?

- 3 years of database, network administration, or system administration experience
- Strong knowledge of systems and networking software, hardware, and networking protocols
- Strong knowledge of implementing and effectively developing helpdesk and IT operations best practices, including expert knowledge of security, storage, data protection, and disaster recovery protocols
- Experience in installing, configuring and troubleshooting UNIX /Linux based environments (CentOs is a plus)
- Experience with scripting and automation tools (e.g., shell scripts, Perl, Ruby, Python)
- Solid networking knowledge (OSI network layers, TCP/IP)
- Solid knowledge of administration and performance tuning of application stacks (Apache, MySQL, NGINX, Rabbit)
- Experience with virtualization and containerization (e.g., VMware) and with Cloud (preferably Google Cloud and AWS)
- Experience with monitoring systems and with automation software (e.g., Puppet, cfengine, Chef)
- Associate or Bachelor's degree in Computer Science, Information Technology, System Administration, or a closely related field, or equivalent experience required

WHAT WE OFFER:

- Working in a very dynamic environment
- Competitive salary package
- Opportunity to great professional advancement
- Opportunity to establish valuable career contacts
- Complex package of benefits
