We are a technology company listed on the Bucharest Stock Exchange and specialized in digital transformation of businesses and communities.

We integrate the skills needed to provide access to the digital economy. Team agility and human-friendly solutions are the ingredients for transforming ITC complexity into simplicity for our partners.

We made it our mission to make life simpler

Join our team, on the position of:

QUALITY ASSURANCE ENGINEER

The Type of Colleague We're Looking For

We are looking for team players who are not only technically proficient, but also demonstrate the following qualities:

1. **Continuous development:** to embrace the concept of learning and becoming better day by day. Personal achievements give us energy and inspire our growth together.
2. **Responsibility:** to get involved courageously and to be the one who presses the start button whenever you see an opportunity.
3. **Agility:** being able to look into the future and search for the solution that will take us further.

What will your
responsibilities
look like?

- Apply the agile methodology in day by day work;
- Evaluates software to ensure it meets the quality standards of the organization and raise any issues that ;
- Tests correctly and completely the newly developed functionalities, regardless the complexity of tasks;
- Isolate issues and identify the route cause;
- Ensure defects are clearly and concisely documented;
- Design, deliver and maintain the tests package, required to validate the software functionality;
- Designs the test plan for testing web and mobile software products, based on project requirements;
- Work closely with developers for delivering the tasks in time and with the expected quality;
- Support, guide or unblock other colleagues;
- Perform end to end API testing for complex features, which involves multiple endpoints;
- Organize workshops related to technical tools and testing process;
- Support test lead with designing and improving testing processes and procedures;
